BONDTECH E415 ADHESIVE

TECHNICAL DATA SHEET

DESCRIPTION & USES:

Bondtech E415 is a specially formulated synthetic latex with good heat and water resistance.

Bondtech E415 is used in the footwear and footwear component industries for bonding of leathers, canvas etc.

METHOD OF APPLICATION:

- To obtain the best results, the materials to be bonded should be dry, clean and free from dust, grit, oil or grease.
- Apply an even coating using brush or roller.
- On absorbent materials such as leather and canvas, bonding may be within a matter of 5 minutes of application.
- On non-absorbent materials a minimum of 15 minutes should be elapsed before the surfaces are bonded together.
- Contact bond the surfaces together using firm pressure.

PROPERTIES:

- Appearance: Opaque cream liquid.
- Viscosity: Thick liquid
- Coverage: 3-4m² per litre

Note: Additional information on physical properties, health hazards, storage, handling and transport is available in the Material Safety Data Sheet (MSDS).
