## **BONDTECH SPECIAL ABS SOLUTION**

### **TECHNICAL DATA SHEET**

#### **DESCRIPTION & USES:**

Bondtech Special ABS Solution is a solvent-cement adhesive used for welding of rigid ABS to itself.

#### **METHOD OF APPLICATION:**

1. To obtain the best results, the materials to be bonded should be dry, clean and free from dust, grit, oil, grease and other contaminants.
2. Apply the ABS solution by brush onto the one of the surfaces of the ABS to be bonded.
3. Bond the second surface of ABS by contacting the wet adhesive and hold the two surfaces together until the adhesive has dried.  
This may take 5-10 minutes depending on the amount of material used.

#### **PROPERTIES:**

Appearance: Opaque, milky white liquid.

Viscosity: Brushable liquid.

Specific gravity: 0.89

**Note: Additional information on physical properties, health hazards, storage, handling and transport is available in the Material Safety Data Sheet (MSDS).**
